

FAASTeam presents:

FAA Ramp Check: Be An Informed Pilot

You just landed, taxied to parking and shut down the engine. Someone walks up and says “Hello, My name is Inspector Jones with the local Flight Standards District Office (FSDO) and I would like to have a conversation with you.” What is this about? Why me? Chances are it will be a straightforward experience, ending with a handshake and a “have a nice day.” However, some ramp checks end up with enforcement actions against the pilot. An inspector from the local San Jose FSDO will present this informative and entertaining seminar to explain the Ramp Check process and what you can expect as a pilot if you ever experience one. They will explain the process, reveal what the inspector is looking for, and provide guidance and suggestions on how to properly handle an FAA ramp check.

Directions: On Hwy 680 exit onto Capital Expressway. Travel SE on Capital. At Cunningham Ave (3rd light) turn Right. Trade Winds Aviation is ahead on the Right, the Terminal Building to the Left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
